Everyday Pinatar Arena

Hello

Today's football requires **the ability to adapt** and evolve quickly facing new challenges, needs and demands of supporters, football clubs, national federations or associations, coaches, general managers and specially those who excite us and make us cry and laugh: **the footballers.**

We were born in 2013 with the philosophy of creating a football centre that **offers everything a football team needs** for training sessions, all seasons training camps, getting ready for a tournament or just getting away for a few days.

We offer an incomparable **natural environment**, unbeatable views over the Mediterranean Sea, **fantastic weather** for morning and evening training sessions throughout the entire year and **the best facilities** designed for footballers. That's why Pinatar Arena is **the ideal place for playing football.**

We are in the **South of Spain**, in the Regional Reserve of Las Salinas de San Pedro del Pinatar, an area that offers two seas on one coastline - the Mar Menor and the **Mediterranean Sea**.

This exceptional environment has large white sand beaches, charming small villages, a delicious and fantastic Mediterranean cuisine and more than **300 days of sun a year** and mild temperatures - even in winter - with a yearly average of **19°C**.

The **best football facilities** of Southern Europe and the beauty and peace of the surroundings makes Pinatar Arena the perfect place for **relaxing, training and playing football**.
